SAP Cloud Platform

List of Sub-processors

TABLE OF CONTENTS

SAP SUB-PROCESSORS & AFFILIATES..... 3
Services by Third Party Providers 3
Services by SAP Affiliates 8

SAP SUB-PROCESSORS & AFFILIATES

The following list, which will be updated when required, provides an overview of SAP's sub-processors providing data processing relevant services on behalf of SAP to its customers. A sub-processor is any further SAP affiliate, or third party involved by SAP (being the contractual party of the service agreement) that processes personal data (as defined in applicable data protection laws) on behalf of SAP and its customers or may have access to systems containing personal data. Depending on the concerned SAP product, service, or technology, an individual sub-processor list is available as download.

New sub-processors are marked as "New" in the sub-processor list. In general, SAP informs the customer about a new sub-processor before such sub-processor goes into operation. Status will be adopted in the next list update cycle to "In operation".

In exceptional cases, due to an emergency situation, Status "Emergency", SAP may involve a sub-processor ad hoc to ensure business continuity in the best interest of the customer. Notification will apply after the fact.

Services by Third Party Providers

Legal Entity	Address	Service Description	Status
Accenture GmbH	Accenture GmbH Campus Kronberg 1 61476 Kronberg Germany	Operational Support: Accenture GmbH is accessing the SAP Cloud Platform to provide operational support like monitoring, backup & restore, release & deployment.
